INTERNATIONAL Water Power & Dam Construction

INDEX 1981

VOLUME THIRTY-THREE
ISSN 0306-400X

January to December 1981

INDEX

Items in italics are feature articles.
Roman numerals denote months.

A

Adits for a long tunnel, Choosing the number and length of—Da Deppo and Rinaldo ..... IX 36

Air compressors, Hydraulic: a new use for an old concept—Norton IX 33

Air entrainment at intakes ..... VIII 46

Africa *see* individual countries

Alaska—
Tidal power study in ..... I 5

Albania—
Further hydropower hopes of ... X 10

Algeria—
Gargar dam design contract ..... V 3
V 7

Alluvial streams, Resistance coefficient for ..... IV 50

Argentina—
Joint hydroelectric project with Brazil ..... III 6
Limay hydro project contract .... XII 7
Salto Grande, Argentina boosts generation capacity of ..... VI 5
San Juan hydro plant project .... IV 4
San Juan vineyards irrigation project ..... XII 49
Ullum dam inaugurated ..... VI 3

Asian Development Bank—
1980 third quarter loans from .... I 9
Technical assistance for Laos project ..... I 9

Aswan High dam—
Allis Chalmers may repair turbines ..... XII 3
Defence against criticism of ..... VIII 3

Australia—
Burdekin dam project halted .... IV 2
Clarence river reservoir proposal ..... VII 3
Help for Malaysian project ..... II 5
Hydro dispute splits Tasmanian Government ..... II 7
VI 4
Low flow cuts Snowy Mountains output ..... III 4
NSW water projects ..... VII 6
Record Tasmanian electricity generation ..... III 5
Tasmania's Miena dam to be raised ..... VII 4
Victoria's Sugarloaf project ..... III 21
Wivenhoe dam and pumped-storage project—Reich ..... I 41

Austria—
Energy exchange contract with Hungary extended ..... X 7
Power prospects ..... VIII 46
Tunnelling machine used on Fragant hydro project ..... XII 47

Automating hydro powerplants—Teichmann ..... X 23

Auxiliary scales for the resistance diagram—Barr ..... II 27

B

Bangladesh—
Ganges waters dispute unresolved ..... V 3
Japanese loan for ..... X 10

Belgium—
Economies of Straflo units for run-of-river stations—Coumans and van Pachterbeke .... V 48
Straflo turbines at Andenne plant ..... III 3
Borehole strength, measuring ... X 48

Brazil—
Irrigation for polígono das secas—Budweg ..... VIII 20
Joint hydro project with Argentina ..... III 6
Pumped-storage development in—Ciarlini and Jordao ..... I 59
II 41
III 40
Synchronous generator for ..... V 5
Turbines for Itaipu—de Moraes, Rodriguez, Gummer and del Brenna ..... XII 36
Turbines for Taquaruçu hydro station ..... V 3

Bulb unit, new Swedish design of hydropower ..... I 7

Bulgaria—
Turnu Magurele-Nicopol hydro project—Focşa ..... V 52
VI 43

Burma—
Mini hydro project ..... III 6
Irrigation projects ..... IX 9

Buttress dams, an optimised design method for—Priscu, Popovici and Suprovici ..... III 29

C

Cabora Bassa, Guerillas interrupt supply from ..... VI 5
see also Correction ..... IX 7

Canada—
Annapolis tidal plant to have Straflo turbines ..... III 3
BC flood ..... III 6
BC Hydro annual report ..... VIII 7
BC hydro licence, application for, Peace river site C ..... IV 4
BC hydro records loss ..... I 9
Electricity production rises ..... VI 4
Hydroelectric potential ..... VI 17
Hydropower diversion of Niagara Falls water ..... II 3
Limestone hydro station project may be revived ..... II 5
V 7
Manitoba hydropower sale ..... V 7
Nova Scotia hydro plant plan .... VI 5
US reassurance on Garrison diversion project ..... VI 5
Water flow reversed to feed La Grande ..... XII 3
Work on Revelstoke hydro project ..... I 7
Work resumed on Manic V project ..... XI 5

Carsington reservoir contract ..... X 10

Cavitation and Wear on Hydraulic Machines—Du-Tong ..... IV 26
Chambal project—problems and solutions—Sinha ..... VIII 25
Channels—
Resistance coefficient for alluvial ..... IV 50
Specific energy equation for rectangular—Gai ..... II 24

China—
Allis Chalmers Co-operation, agreement with ..... VI 4
A new era for hydropower in—Smil ..... IV 23
Cavitation and wear on hydraulic machines—Du Tong ..... IV 26
Dam construction in ..... IV 17
Diary of US Engineers' visit to—Higginson ..... V 36
Floods pass Gezhouba dam ..... IX 5
Floods threaten hydroelectric development ..... X 5
Gezhouba cofferdam closed ..... VII 3
ICOLD President looks at—Londe ..... IV 15
More mini hydro stations built in ..... X 7
Potential for hydro development—Waigong ..... IV 18
Three Gorge dam proposed ..... II 52
Tidal plant to double capacity ... II 3
US water engineer's visit ..... VIII 6
Yangtze Gorges hydroelectric project ..... IV 21

Ciskei project, Go-ahead for ..... VIII 7

Colombia—
Betania hydropower complex contract ..... V 9
VII 6
see also Correction ..... IX 7
Guadalupe IV contract ..... IV 5
Guavio project contracts placed VII 6
San Carlos hydropower station project ..... IV 3
World Bank loans for hydro project ..... V 9
VII 6

Compensating flow, Generating power from ..... XI 59

Compressed air—A new use for an old concept—Norton ..... IX 33

Concrete—
Dam construction spraying technique ..... III 48
Fly ash and rolled concrete for cheaper dam construction ..... VIII 42
Limit state design of dam —Mason ..... VIII 36

Relaxation in—Souza Lima, Guedes, Andrade and Bastos XII 27

Conduits, Friction in ..... XII 58

Conferences—
IAHR 19th Congress ..... III 3
ICID (International Commission on Irrigation and Drainage) 13th Congress ..... XI 61
ITA-AFTES conference ..... V 25
VII 4
Severn barrage scheme symposium ..... XI 3
Waterpower '81 .....VIII 4

Congo—
Hydroelectric scheme contract placed by ..... IX 9

Correction ..... V 6
IX 7

Corrosion—
Protecting sub-surface pipes from ..... VIII 32
Protection in the USSR ..... X 50

Costa Rica—
Loans for projects in ..... III 7
IV 5

Cyprus—
Nicosia water supply scheme .... V 3

Czechoslovakia—
Dalešice pumped-storage scheme—Hanák ..... V 34

D

Dalešice pumped-storage scheme, —Hanák ..... V 34

Dam concrete, The limit state design of—Mason ..... VIII 36

Dams—
Aabach (W. Germany), Change in design of ..... XII 58
Al-Massira (Morocco)—Dinia and Bischof ..... VII 19
Algerian project design contract V 3, 7
An optimised design method for buttress dams—Priscu, Popovici and Suprovici ..... III 29
Analysing displacement measurements in gravity dams—Guedes, Rosso and Franco .... X 43
Aswan High dam, Defence against criticism of ..... VIII 3
Allis Chalmers may repair turbines ..... XII 3
Batang Ai (Malaysia), Australian help on ..... I 5
Beas (India) Gougy seams in .... II 52
Large barge used at ..... VIII 46
Bhadra (India), Opposition to closure for repairs of ..... XI 4
Burdekin (Australia), Lack of funds halts ..... IV 2
Buttress dams, An optimized design method for—Priscu, Popovici and Suprovici ..... III 29
Chasteuil (France), Opposition to ..... I 3
Ciskei project ..... VIII 7
Concrete gravity dam, Selecting the optimum cross-section of—Iliev and Kalchev ..... XII 23
Dadin Kowa (Nigeria), Contractors appointed for ..... VIII 7
Daer (Scotland), Reconstruction programme on ..... V 7
Dispersivity in earth dams ..... XI 66
Displacement measurements in gravity dams, Analysing—Guedes, Rosso and Franco .... X 43
Earth dams and anchors worry CIRIA ..... II 7
El Cajón hydro project, *Model studies of an overtopped rockfill dam*—Gerodetti ..... IX 25
Fly ash and rolled concrete for cheaper construction ..... VIII 42
Geodertouw (South Africa) earth dam project ..... VIII 6
George (Nigeria) project, Civil works contract for ..... V 9
Gezhouba (China), Floods pass safely at ..... IX 5
Gravity dam, Selecting the optimum cross-section of a concrete—Iliev and Kalchev ..... XII 23
Gravity dams, Analysing displacement measurements in—Guedes, Rosso and Franco .... X 43
India, Dam safety in ..... X 50
Inspecting dams under construction ..... III 50
Instrumentation for dams—Duscha ..... X 20
Insurance questionnaire ..... VI 49
Java multipurpose project ..... IX 9
Kiambere (Kenya) project started ..... V 3
Khao Laem (Thailand), Tunnelling work at ..... XII 6
Kielder (UK) starts impounding II 7
Kingsley (USA) powerhouse contract ..... XII 7
Lake Chabot (USA), Work on spillway at ..... XI 3
Mahi Bajajsagar (India), Dispute over water distribution from ..... IX 3
Major dams of the world (Tables)—Mermel ..... V 55
Miena (Tasmania) to be raised VII 4
Oyan river dam (Nigeria), Construction progress on ..... II 5
Passing floodwaters over—Pravdivets and Slissky ..... VII 30
Protecting the nose of an earth dam ..... IV 50
Recent advances in monitoring—Anesa, Ronaldi and Giuseppetti ..... X 17
Revelstoke project (Canada), Work progress on wing dam I 7
Ridracoli (Italy), Modelling and analysis for the ..... V 69
Rockfill dams, Seismic behaviour of ..... VIII 46
Roseires (Sudan), Silting at ..... IX 3
Safety in India ..... X 50
Safety of dams judged from failures—Serafim ..... XII 32
Seismic behaviour of rockfill dams ..... VIII 46
Sprayed concrete technique for III 48
Sterkfontein (South Africa), Project to raise ..... V 3
X 3
Sugarloaf (Australia) project ..... III 21
Tarbela (Pakistan), Repairs to V 70
Teton (USA) insurers lose appeal ..... VI 3
Thailand multipurpose project XI 6
Three Gorge dam (China), Proposed ..... II 52
Ukai dam, Ski-Jump spillway for India's—Kulkarni and Patel IX 44
Ullum (Argentina) inaugurated VI 3
US emergency plans for failures IV 3
Victoria (Sri Lanka)
Work progress on ..... I 3
Water treatment plant for ..... V 9
Wivenhoe (Australia) dam and pumped-storage project—Reich ..... I 41

Danube, The Turnu Magurele—Nicopol hydro station for—Focşa ..... V 52
VI 43

Detonating system, Risk-free ..... VIII 43

Dewatering systems, Problems with ..... III 49

Dinorwic, Progress at ..... I 67
Dinorwic pumped-storage scheme ..... II 7
VIII 3
Instrumentation at ..... X 48

Displacement measurements in gravity dams, Analysing—Guedes, Rosso and Franco ..... X 43

Draft-tube instability, Practical solutions for—Thicke ..... II 31

Dredging with floating hose, Faster ..... I 72

Drill instrumentation predicts machine performance ..... X 48

E

Egypt—
Allis Chalmers may repair Aswan turbines ..... XII 3
Aswan High dam defended against criticism ..... VIII 3

El Cajón
Hydro project in Honduras—Arriviallaga and Kreuzer ..... II 37
see also Correction .....VI 4
Model studies of an overtopped rockfill dam (El Cajón)—Gerodetti ..... IX 25

Electric power systems, Minimising losses in ..... II 52

Energy decisions, Models for ..... III 49

Energy network, Computer program for planning ..... III 50

Energy production, The Americas lead in ..... III 5

Er Roseires power station, Further two generators for ..... I 7

Euphrates schemes, Dissension caused by ..... VII 4

F

Field management, Timelapse system for improving ..... III 48

Fiji—
Loan to expand hydro project ... X 10

Finland—
The changing role of hydro in—Aalto and Joutski ..... V 40
Water equivalent of Finnish snow ..... VII 47

Floating hose, Faster dredging with ..... I 72

Flood control on the Paraná and Paraguay rivers—Keller, van Duivedijk and Mondada ..... VII 36

Flow-induced forces and vibrations, Prediction of—Pennino ... II 19

Flowmeters for hydraulic scale models, Ultrasonic ..... X 26

France—
Garonne river development plan ..... IV 3
Motz (Rhône) small hydro station commissioned ..... XI 59
Opposition to Buech hydroelectric project ..... XI 5
Opposition to Verdon pumped-storage project ..... I 3
Salmon lovers question hydro plant plans ..... X 5

Scrutinizing small hydro schemes ..... VI 5
Sustaining the growth of Provence ..... VIII 28

G

Gambia basin development body, Guinea joins ..... VI 3

Gates, Estimating water flow under—Zanker ..... XII 50

Generators—,
Excitation of small ..... XI 66
Induction generators for small hydro plants—Pereira ..... XI 30

Geomechanical data, Studying ..... V 70

Germany—
Change in design of the Aabach dam ..... XII 58
Dam design in ..... IV 50
Lech capacity to be increased .... IV 5
Steinbach hydro station, Rim seals for ..... I 3
Turbines ordered for Lechstufe 21 power station ..... XI 4

Ghana—
Hydroelectric power in (Kpong project)—Quartey and Allen II 45
Kpong commissioning delayed XI 3

Greece—
Environmental impact assessment in—Valiantza-Aftia ..... V 46
French consortium for irrigation project ..... XII 6

Guatemala—
Installation work at Salto Maria Linda plant ..... VIII 6

Guidevanes, Controlling ..... XII 58

Guinea—
Gambia basin development body joined by ..... VI 3
Water resources to be studied ... X 7

H

Himalayan water wheels, Improving performance of ..... I 70

Holland—
Ecology of the Eastern Scheldt XII 58

Honduras—
El Cajón hydro project in—
Arriviallaga and Kreuzer ..... II 37
III 37
see also Correction ..... VI 4
Model studies of an overtopped rockfill dam for El Cajón—
Gerodetti ..... IX 25

Hong Kong—
Project to increase water supplies from China ..... VIII 7

Hull tidal barrier (UK), Award for VII 3

Hungary—
Energy exchange contract with Austria extended ..... X 7

Hydraulic gates, State-of-the-art—
Erbiste ..... IV 43

Hydraulic turbines, *see* Turbines

Hydraulic air compressors, a new use for an old concept—Norton IX 33

Hydraulics—
Auxiliary scales for the resistance diagram—Barr ..... II 27
Draft tube instability, Practical solutions for—Thicke ..... II 31
Flow-induced forces and vibrations, Prediction of—Pennino II 19
Specific energy equation for rectangular channels—Gai ..... II 24

Hydro at an ebb in Yugoslavia ..... III 47

Hydro development potential in China—Weigong ..... IV 18

I

IAHR—
President's message ..... II 17
Conference ..... III 3

Ice, Effects on river discharge of ... III 49

ICOLD, *see* International Commission on Large Dams

Imperial College research studies VI 52

India—
Beas dam, Gougy seams in ..... II 52
Beas dam, Large barge used at... VIII 46
Bhadra dam closure, Farmers fight the ..... XI 4
Chambal Project, Problems and solutions—Sinha ..... VIII 25
Dam safety in ..... X 50
Flood damage ..... IX 7
Ganges waters conflict unresolved ..... V 3
Hydropower development in—
Jeganathan ..... III 43
Mahi Bajajsagar dam water rights, Dispute over ..... IX 3
Nepal hydro scheme, Assistance for ..... III 4
Orissa irrigation project, Credit for ..... II 8
Pune laboratories, research projects at ..... II 50
Reservoir embankment failure XII 3
Sedimentation control in reservoirs—McKeogh ..... X 41
Sedimentation studies in ..... VII 47
Silent Valley hydropower project opposed ..... XI 4
Silting of reservoirs ..... III 3
Ukai dam, Ski-jump spillway for the—Kulkarni and Patel ..... IX 44
Water development agency funded ..... XII 7
Watrak reservoir, Protection works on ..... IV 50

Indonesia—
Irrigation schemes in, Loans for I 9
Java multipurpose dam project, Loan for ..... IX 9
Penstocks contract placed, Large ..... X 11
XI 6
Rentang barrage, Java's new ..... VIII 17
Sumatra irrigation study ..... XII 6
West Java hydro station project V 9
X 11
XI 6

Induction generators for small hydro plants—Pereira ..... XI 30

Instrument supplement ..... X 29

Instrumentation—
Instrumentation for dams—Duscha ..... X 20
Instrumentation at Dinorwic .... X 48

International Commission on Large Dams—
da Rocha, Prof. Manuel, Death of ..... XI 5
Membership fees increase proposal ..... VI 8
National Committees, Letter from President to ..... VI 6
President looks at China ..... IV 15
Publications ..... III 5
VI 50
Stockholm Executive Meeting VII 9

International Commission on Irrigation and Drainage, New president of ..... X 7

International Construction Equipment exhibition ..... III 52

International Energy Annual of US DOE ..... III 5

Israel—
Concern over Jordanian hydroelectric project ..... X 5

Itaipu, Turbines for—de Moraes ... XII 36

Italy—
Chiotas pumped-storage plant, Startup problems at ..... II 52
Ridracoli dam, Modelling and analysis for the .... V 69

J

Japan—
Bangladesh, Loan to ..... X 10
Jordanian project, Loan to assist ..... VIII 7
Java, *see* Indonesia

Jordan—
Akaba, Hydroelectric plan involves water from ..... X 5
Wadi Arab scheme, Japanese aid for ..... VIII 7

K

Kenya—
Energy specialists at Nairobi conference ..... VIII 6
X 3
Tana river dam project ..... V 3

Kerckhoff 2, USA, Circular underground powerhouse for—
Zayakov ..... IX 21

Kielder reservoir(UK)—
Impounding started ..... II 7
Power project to go ahead ..... IX 5

L

Lake Chad, Exploiting the waters of ..... VIII 15

Lake Kariba, Pollution of ..... XI 6

Landscape information system, Computer-aided ..... VIII 42

Laos—
Vientiane electrification scheme begins ..... III 7
Xeset hydroelectric project, Loan for ..... I 9

M

Madagascar—
Flood control studies in ..... III 6

Major dams of the world, (Tables) —Mermel ..... V 55

Malawi—
Nkula Falls hydro plant commissioned ..... XII 6

Malaysia—
Batang Ai project, Australian help for ... II 5
Hydro development in ... V 70
Japanese gates for ... VIII 7
Kenyir hydro project contract, Korea wins ... II 8
Mengkvang Valley reservoir project ... VII 3

Malta scheme's pump-turbines, Analysing the transient phase of—Tschumy ... V 27

Mauritania—
Credit for irrigation project in ... I 9

Measuring rock stress for hydro projects—Haimson ... X 37

Monitoring dams, Recent advances in—Anesa, Bonaldi and Giuseppetti ... X 17

Morocco's largest multipurpose scheme—Dinia and Bischof ... VII 19

Mozambique—
Cobora Bassa supply, Guerillas interrupt ... VI 5
see also Correction ... IX 7
Irrigation projects, USSR studies possible ... XI 3

N

Nepal—
Bebai irrigation project, Road for ... X 11
Indian help on hydro scheme ... III 4
Mini hydropower project ... VII 6
Waterwheel generation experiment, Small ... I 72

New meets old after fifty years—Daugherty ... VI 32

New Zealand—
Aniwhenna hydro scheme opened ... V 7
Hydro stations planned, More ... V 5
Rangitata diversion race leaking ... VI 4

Neyrpic's role in pumped-storage I 66

Niagara Falls, Hydropower diversion of water from ... II 3

Nigeria—
Chad, Exploiting the waters of lake ... VIII 15
Dodin Kowa dam project begun ... VIII 7
Ogun-Oshun contract awarded ... V 9
Oyan river dam, Work on ... II 5

Nohab Tampella joint company to be dissolved ... VI 5

North of Scotland Hydro-Electric Board, Pitlochry Research Laboratory of ... VI 52

Norway—
Alta river project to go ahead ... II 7
Alta river project postponed ... IV 4
Alta river project still in balance ... XI 3
Sy-Sima power station comes on stream ... VII 5

O

Orkney Islands, Possible submarine cable link for ... V 7

Overspill wave, Study on air carried by an ... XI 66

P

Pakistan—
Rural power schemes in—
Abdullah and Inversin ... XI 23
Tarbela hydro plant, Large branch pipes for ... XII 3

Papua-New Guinea—
Laluai river hydropower project VI 5
Priority for hydropower in ... XI 6

Paraguay—
Seminar on increasing energy use in ... I 7
Turbines for Itaipu—de Moraes XII 36

Paraná and Paraguay rivers, Flood control on the—Keller, van Duivedijk and Mondada ... VII 36

Passing floodwaters over embankment dams—Pravdivets and Slissky ... VII 30

Peru—
Cañon del Pato station uprated X II
Computer-aided evaluation of hydropower of Peru—Morariu ... XII 52
Power engineering project, Loan for ... IX 9

Philippines—
Angat-Magat irrigation scheme XI 62
Chico river hydro project, Tribes' opposition to ... II 3
Integrated agricultural development in the Philippines—Takase ... VIII 22

Pipes—
Buckling pressure of pipes, Critical ... III 50
Protecting sub-surface pipes from corrosion ... VIII 32

Pitlochry Research Laboratory ... VI 52

Plant evaluation planning studies, Pumped-storage—Panichelli, Salvaderi and Valtorta ... I 55

Portugal—
Electricity production in ... V 5

Prediction of flow-induced forces and vibrations—Pennino ... II 19

Pressure tunnel, Leakage around a II 52

Product information—
Anti-corrosion system ... IX 54
Bond for concrete joints ... IX 54
Boring head convertor ... III 54
Breakers, Hydraulic ... IV 52
V 72
Calculator, Tank capacity ... II 54
Carrier for trackless terrain ... XII 60
Compressor, Self-propelled ... IX 52
Concrete breakers, Hydraulic ... IV 52
V 72
Concrete joints, Bond for ... IX 54
Controller, Programmable ... XI 68
Cranes, Hydraulic crawler/dragline ... V 72
Cranes, Hydraulic truck ... III 52
Cranes, Rough terrain ... II 54
Cutting system, Plasma ... VII 50
Dozer for damp ground ... IX 52
Drainage system, Vertical prefabricated ... IX 54
Drill/chipping hammer ... III 52
Drill rig ... III 52
Groundwater monitoring, Sampling pump for ... IX 52
Hydraulic power packs, Portable ... IV 52
Instruments, Various, *see Instrument Supplement* ... X 29
Liquid level indicator/controller III 54
Loaders, Adaptor for ... III 54
Loaders, Electro-hydraulic ... II 54
Loaders, Track ... VII 50
Loaders, Wheel ... III 52
Loading shovels ... I 74
pH meter, High resolution ... IX 55
Planimeter, Digital ... VIII 48
Plasma cutting system ... VII 50
Platform, Self-propelled hydraulically driven ... V 72
Pressure regulator ... I 74
Pressure transmitter ... XII 60
Programmable controller ... XI 68
Pumps, Water-powered water XII 60
Recorder, Thermal-array ... XI 68
Rock drilling and mining equipment ... III 52
Slump paver ... I 74
Strain gauge calibrator ... XII 60
Stroboscope, Portable ... XII 60
Television, Submersible closed-circuit ... XI 68
Theodolite, Precision ... IV 52
Thermal-array recorder ... XI 68
Water turbine calculator ... VIII 48

Pumped-storage plants—
Conceptual design of turbines for Bath County (USA)—Chacour and Grubb ... I 44
Constructional problems in large plants—Abraham and Lottes I 31
Dalešice project—Hanák ... V 34
Determining the hydraulic lateral force of pump-turbines—Krämer ... I 50
Dinorwic, Progress at ... I 67
Dinorwic pumped-storage scheme ... II 7
VIII 3
Drakensberg (S Africa) ... IV 4
V 3
IX 3
Leakage and seepage from upper reservoirs—Mosonyi ... I 35
List of world's plants ... I 68
Minghu (Taiwan) ... III 7
Neyrpic's role in pumped storage I 66
Plant evaluation planning studies—Panichelli, Salvaderi and Valtorta ... I 55
Pumped-storage development in Brazil—Ciarlini and Jordao I 59
II 41
III 40
Spanish project ... III 7
Start-up problems at Chiotas (Italy) ... II 52
Steenbras cuts Cape Town's costs ... I 41
Verdon (France) ... I 3
Water begins to flow at Dinorwic ... VIII 3
Wivenhoe (Australia) dam ... I 41

Pumps—
Developing, for Third World use VIII 18
Sun powered, could help Third World farmers ... VIII 30
Using, as small turbines—Shafer and Agostinelli ... XI 58

Pump turbines—
Analyzing the transient phase of the Malta scheme's units—Tschumy ... V 27
Conceptual design of, for Bath County—Chacour and Grubb I 44
Determining the hydraulic lateral force of—Krämer ... I 50
see also Correction ... V 6
Starting problems ... III 49

R

Rainfall measurements, Radar techniques for ... IV 50

Rectangular channels, Specific energy equation for—Gai ... II 24

Regulation, Predicting the stability of—Howe ..... VII 32

Research and development—
Borehole strength, Measuring X 48
Concrete sprayed into place ..... III 48
Detonating system, Risk-free ... VIII 43
Dinorwic, Instrumentation at ... X 48
Dredging with floating hose, Faster ..... I 72
Drill instrumentation predicts machine performance ..... X 48
Fly ash and rolled concrete for cheaper dam construction ..... VIII 42
Himalayan water wheels, Improving performance of ..... I 70
Landscape information system, Computer-aided ..... VIII 42
Pipe seals, Inflatable ..... III 48
Pitlochry Research Laboratory, New ..... VI 52
Pune laboratory looks at India's hydro problems ..... II 50
Spillways, manifolds and cavitation, Research studies on ..... VI 52
Timelapse system improves management ..... III 48
Waterwheel generation experiment ..... I 72

Reservoirs—
Carsington, Contract for ..... X 10
Clarence river project ..... VII 3
Daisy lake (Canada) ..... III 6
Indian reservoirs, Silting-up of III 3
Malaysian project ..... VII 3
Model studies on ..... IV 50
Sedimentation control in Indian X 41
Sugarloaf project (Australia) ..... III 21
Taiwan project ..... III 6
Vaal, South African plans to drain ..... X 3

Resistance diagram, Auxiliary scales for the—Barr ..... II 27

Rhine above Lake Constance, Exploiting the—Weber ..... V 44
see also Correction ..... IX 7

Ridracoli dam, Modelling and analysis for the ..... V 69

River current calculation, Methods for ..... III 50

Rock stress for hydro projects, Measuring—Haimson ..... X 37

Rockfill dam, Model studies of an overtopped—Gerodetti ..... IX 25

Rocky Reach, Modifying the units at—McKee ..... VI 19

Romania—
Irrigation projects in Romania, Loan for ..... III 7
VIII 7
Small hydro stations planned .... V 7
Tube turbines developed ..... XI 4
Turnu Magurele-Nicopol hydro project for the Danube—Focşa ..... V 52
VI 43
Runoff coefficients, Determining III 49

Run-of-river plants, Optimum size of small—Gingold ..... XI 50

S

Safety of dams judged from failures—Serafim ..... XII 32
Seals—
Inflatable pipe seals ..... III 48
Rim seals for Steinbech hydro station ..... I 3
Sedimentation control in Indian reservoirs—McKeogh ..... X 41
Severn barrage scheme: Committee's latest report ..... IX 48

Shotcrete—
Use of ..... II 52
Improvements in shotcreting—Matsuo and Kenmochi ..... XII 42

SMEC, Annual report of ..... III 5

Solar-powered pumps could help Third World farmers ..... VIII 30

Solomon Islands—
Loan for water supply project in I 9

Somalia—
Flood damage study for ..... XII 7

South Africa—
Ciskei project contract ..... VIII 7
Drakensberg scheme, First set ready ..... IV 4
IX 3
Geodertouw dam nears completion ..... VIII 6
Steenbras scheme cuts Cape Town's cost ..... I 39
Sterkfontein dam to be raised ... V 3
X 3
Vaal dam raised ..... X 3

Spain—
Drought troubles, Continuing ... V 6
Lerida project, Alternators ordered for ..... III 7
Small hydro plants plan ..... VII 6

Specific energy equation for rectangular channels—Gai ..... II 24

Spillway for India's Ukai dam, Ski-jump—Kulkarni and Patel IX 44

Spillways, manifolds and cavitation, Research studies on ..... VI 52

Sri Lanka—
Mahaweli project, Financial constraints impede ..... IX 7
Power lines extensions planned X 10
Victoria dam project ..... I 3
V 9

Straflo units, Economies for run-of-river stations of—Coumans and van Pachterbeke ..... V 48

Sudan—
Er Roseires power station, More machines for ..... IV 5
Power crisis in ..... IX 3
Roseires dam, Silting at ..... IX 3

Sumatra—
Irrigation study ..... XII 6

Swaziland—
Hydroelectric project, Loan for VIII 8

Sweden—
Bulb unit, New design of ..... I 7
Small hydro stations in Sweden—Persson ..... XI 54

Switzerland—
Exploiting the Rhine above Lake Constance—Weber ..... V 44
see also Correction ..... IX 7

Syria—
USSR offers aid to ..... III 5

System vibrations in hydro plants, Intense—Glattfelder, Grein and Dörfler ..... III 34

T

Taiwan—
Feitsui reservoir project ..... V 6
Minghu project, Japanese equipment for ..... III 7

Tanzania—
Kidatu hydro project, Loan for VII 6
Rufiji project, Hesitation over VIII 6
Tarbela dam repairs ..... V 70

Thailand—
Chiew Larn hydroelectric project, OPEC loan for ..... XII 7
Electricity supply expansion, Loan for ..... XI 6
Khao Laem hydropower project IV 5
XII 6
Multipurpose dam project ..... XI 6

Tidal power—
Alaska looks at ..... I 5
American Indians consider ..... III 3
Canadian project to have Straflo turbines ..... III 3

Timelapse system for improving field management ..... III 48

Transient loads, Governing turbines for—Benkö ..... IV 38

Tunnel boring in varying soils ..... VIII 46

Tunnelling—
Boring machine in use on Austrian hydro project ..... XII 47
Choosing the number and length of adits for a long tunnel—Da Deppo and Rinaldo ..... IX 36
Work at Khao Laem (Thailand) XII 6

Turbines—
Allis Chalmers may repair Aswan ..... XII 3
Appropriate technology for small—Strohmer and Walch XI 36
Behaviour under cavitation conditions—Antonini and Giadrossi ..... III 25
Canadian project to have Straflo III 3
Cost analysis of hydraulic machines—Sheldon ..... VI 24
Cylindrical valves for ..... VIII 46
Desk calculator for ..... VIII 48
German orders for ..... XI 4
Governing turbines for transient loads—Benkö ..... IV 38
Horizontal tubular unit commissioned in USA ..... X 5
Hydro turbines geared for higher powers—Cederberg ..... IX 40
Practical solutions for draft-tube instability—Thicke ..... II 31
Predicting the stability of regulation—Howe ..... VII 32
Romania develops tube type ..... XI 4
Straflo units at Belgian plant ..... III 3
V 48
Turbines for Itaipu—de Moraes, Rodriguez, Gummer and del Brenna ..... XII 36
Using pumps as small—Shafer and Agostinelli ..... XI 58
Voith units for Brazilian project V 3
World's bulb turbines (Tables)—Cotillon ..... IX 42
World's largest Pelton ..... IV 3

Turnu Magurele-Nicopol hydro station for the Danube—Focşa ... V 52
VI 43

U

Ultrasonic flowmeters for hydraulic scale models ..... X 26

Underground rock conditions, Device to give visual impression of III 50

United Kingdom—
Award for Hull river tidal barrier ..... VII 3

Carsington reservoir contract ... X 10
Dinorwic, (Wales) Progress at ... I 67
Dinorwic pumped-storage scheme ... II 7
VIII 3
Orkney Islands submarine cable V 7
Small hydro sites identified in Wales ... II 3

USA—
Alaska looks at tidal power ... I 5
A perspective of hydro in—O'Brien ... VI 21
Bonneville second powerhouse, New meets old after fifty years—Daugherty ... VI 32
Burec resumes original title ... VIII 6
Circular underground powerhouse for Kerckhoff—Zayakov ... IX 21
Conceptual design of pump-turbines for Bath County—Chacour and Grubb ... I 44
Emergency plans for dam failures ... IV 3
Fire at Grand Coulee powerplant ... IX 3
Fryingpan Arkansas, Many faces of ... VI 39
Horizontal tubular turbine unit commissioned at Russell D. Smith powerplant ... X 5
Kennebec and Potomac hydro potential ... I 7
Kingsley dam powerhouse contract ... XII 7
Micro hydropower in—Haroldsen and Simpson ... XI 48
Modifying the units at Rocky Reach—McKee ... VI 19
New Commissioner for WRPS V 3
Potential for small hydro plants I 5
Reassurance to Canada on Garrison diversion project ... VI 5
Salinity of rivers in ... XI 66
Small and low-head hydro in—Gillette ... XI 25
Small hydro plants for Ohio river ... III 50
Spillway construction at Lake Chabot dam ... XI 3
Survey programme for small hydro sites ... II 5
Teton dam insurers lose appeal VI 3
Water engineers visit China ... VIII 6
Waterpower '81 conference ... VIII 4

USSR—
Aid offered to Syria ... III 5
Corrosion protection in ... X 50
Kolyma hydro station commissioning delay ... IX 7
Mozambique irrigation study by USSR ... XI 3
Siberian rivers, diversions urged IX 50

W

Wales—
Dinorwic, Progress at ... I 67
Dinorwic pumped-storage scheme ... II 7
VIII 3
Small hydro sites identified in ... II 3

Water flow under gates, Estimating—Zanker ... XII 50

Water level control for small hydro plants—Horn and Bergseng XI 45

Water needs, Social and technical aspects of the world's ... XI 61

Waterpower '81 conference ... VIII 4

Wave and tidal energy, International symposium on ... XI 5

Wavepower devices—
Developments to Salter's nodding duck ... IV 2
Farley floating beam proposal ... III 4

Weirs on alluvial foundations ... III 49

Wivenhoe dam and pumped-storage project—Reich ... I 41

Y

Yacyreta hydro complex, Bids for spillway and gates for ... I 11

Yugoslavia
Hydro at an ebb in ... III 47

Z

Zambesi hydro project, Mupata Gorge ... XI 6

Zimbabwe—
Kariba pollution threatens wildlife ... XI 6

Comment

A message from IAHR's President II 17
A view from Canada ... VI 17
Cheap electricity is not always the answer ... XI 21
Cutting the costs of tunnelling ... V 25
ICOLD's President looks at China IV 15
Irrigation—a pressing need ... VIII 13
Still more potential for pumped-storage ... I 29
The responsibilities of dam building ... VI 17
Unifying Europe ... V 25

Correspondence

An unmerited book review—Leyland ... VII 45
Collapse of the Marib dam—Eurenius ... IV 4
Geared bulb turbines,
—Hartmann ... VII 45
—Cederberg ... VII 45
Optimum design flood for spillways—Fahlbusch ... VII 46

International abstracts

Aabach dam, Change in design of the ... XII 58
Air carried by an overspill wave ... XI 66
Air entrainment at intakes ... VIII 46
Austria's power prospects ... VIII 46
Beas dam, Gougy seams in ... II 52
Beas dam, Large barge used at ... VIII 46
China's Three Gorge dam ... II 52
Controlling guidevanes ... XII 58
Corrosion protection in the USSR X 50
Critical buckling pressure ... III 50
Cylindrical valves for turbines ... VIII 46
Dam design in Germany ... IV 50
Dam safety in India ... X 50
